

AMAZING
Shades & Sails

Asperia Street Reserve Gold Coast QLD

Client:

GCDA/Gold Coast City
Council

Design & Construction By:

Amazing Shade & Sails

Project Status:

Completed January 2010

Project Size:

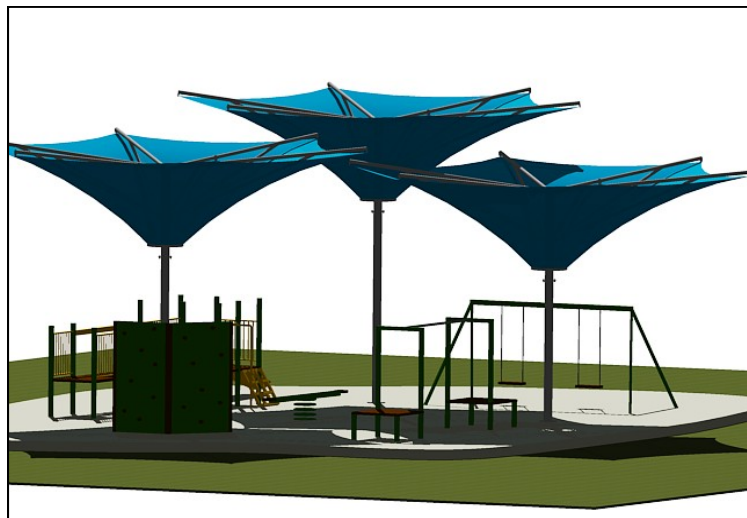

125m²

Budget:

\$39,000

- From the design through to construction, this project proved to be a challenge
- Traditional shade structure designs could not be applied in this situation due a number of factors, namely the location of underground services (desal pipe) & existing boundaries
- Our creative team produced a unique design—inverted conicals.
- These designs are hexagonal inverted conicals with support framing above the shade canopy. Due to the minimal footing requirements of these structures we were able to provide good shade coverage with less columns
